Junior Front-End Developer

ABOUT US

The Fowler Group is a creative, strategy, and branding agency, specializing in the development of top-notch brands through a variety of visual mediums. With focuses in branding, design, print, interactive and market strategy, the Fowler Group partners with passionate people to make their brands stand out in the marketplace.

ABOUT YOU

We actively seek out like-minded individuals, folks who wake up in the morning and think — “I love DESIGN, I want to talk DESIGN, I want to LIVE DESIGN and I want to work in a place that embodies authenticity, curiosity, trustworthiness, and relationship building.”

ABOUT THE POSITION

The Fowler Group is growing and looking for an Junior Front-end Developer to join us in our Kennedale studio. Our ideal candidate needs at least 2 years of experience working as a front-end developer. Basic understanding of web standards and responsive web design, as well as experience working with Wordpress and other content management systems.

We believe each individual contributes to our agency and so you should come with a fresh perspective on what you would like to achieve with the position. You should be a great communicator who has the ability to express your ideas and work well with fellow developers, designers, and clients.
